1625 types of fish

133 varieties of
sharks and rays

600 types of soft
and hard corals

Australian Government
Great Barrier Reef
Marine Park Authority

CITIZENS OF THE
GREAT BARRIER REEF

Citizens exists to engage the
World in the future of the Reef

We're building a movement to enable Citizens to understand, support and engage in the projects on the Reef

And to take action for the Reef wherever they are on the planet .

Citizens Atlas

The Citizens Atlas is the heart of the community. It allows us to share great projects, using data generated from the actions by the community to illustrate the power of the community.

Atlas has been designed to let us bring the Reef alive in ways that have never been done before, and to do this through a true collaboration with the people on the the Reef.

64 ORGANISATIONS
104 PROJECTS
